

SwiftRide EV Rental Knowledge Base

Policy & Operations Handbook v4.1

1. Introduction

- Welcome to the SwiftRide Electric Vehicle (EV) Knowledge Base. This document outlines the protocols for renting, operating, and returning our fleet of premium electric scooters and cars.

2. Booking Policy

- Reservations can be made via the SwiftRide App or our web portal.
- A booking confirmation is issued immediately via push notification and email.
- Vehicles are held for a maximum of 15 minutes past the reserved start time.
- Bookings cannot be modified once the vehicle has been unlocked.

3. Rental Delivery & Pickup

- Home Delivery: Available within a 10 km radius of urban hubs (2-hour lead time).
- Hub Pickup: Instant access via QR code scanning at any SwiftRide station.
- Delivery fees vary based on the distance from the nearest charging hub.

4. Refund & Credits Policy

- Refund requests for technical malfunctions must be submitted within 24 hours of the ride.
- Processed refunds appear as "SwiftCredits" in the app within 48 hours.
- Original payment method refunds take 5–7 business days to process.
- Initial unlock fees are non-refundable unless the vehicle fails to start.

5. Vehicle Return Policy

- Vehicles must be parked in designated "Blue Zones" to end the session.
- Helmets and charging cables must be returned to their respective compartments.
- Users have a 5-minute "Grace Period" to end a ride if a parking zone is full.

6. Cancellation Policy

- Cancellations made 1 hour prior to the booking start time are free of charge.
- Late cancellations incur a flat fee of \$5.00.
- Refunds for canceled pre-paid bookings are processed within 3 days.

7. Damage & Insurance

- Basic insurance is included and covers mechanical failures and third-party liability.
- Physical damage caused by negligence (e.g., curb rash, spills) is not covered.
- Users are required to upload 4 photos of the vehicle before and after each trip.

8. Technical Assistance

- If you experience issues with unlocking or operating the vehicle:
- Toggle your phone's Bluetooth OFF and then ON.
- Ensure you have a stable cellular data connection.
- Check if the vehicle's battery level is above 10% in the app interface.

9. Contact & Support

- Support Email: help@swiftride-ev.com
- Emergency Line: +1-800-EV-SWIFT
- Operational Hours: 24/7 for Roadside Assistance; 8 AM – 8 PM for Billing.
